To my Classmates and Friends of Long Beach, N.Y. High School
And
To all that attended our 35th year, High School Class Reunion for the year 1970.

Dear Friends and Fellow Classmates,

Earlier this year “Rose” sent out invitations to this year’s gathering of the graduation class of 1970. Since I had not graduated with this class or any other class for that matter, I felt honored and privileged to have been asked. I had explained to “Rose” that since I wrote a book and released it recently, I wondered how others would feel with a person that wrote such a book. I stated to “Rose” that I was not sure if I could make it there and that I probably wouldn’t know until a month before the event. I was happy to have seen the many that showed up. Even though I knew most that attended from school, and we rarely enjoyed life after school. I enjoyed growing up in Long Beach for many reasons, for us it was unique in many ways. Anyway, I told “Rose” that if I was able to attend, that I would mostly sit back and watch everyone enjoy festivities and if anyone wanted to chat with me about the book it would be no problem.

The teachers of our schools were very smart and taught us many things not covered in books for school, which I am sure happens all over except for those teachers who have no care to go the extra mile and are only interested in their paycheck. Anyway, I wish I could have been more sociable with everyone that night on August 6th 2005. But something took place earlier that day and then again when I arrived at restaurant, that I felt like I was in the twilight zone. Let me explain this to everyone. I wrote a book about prophecies and it also claims that I have direct contact with a very high spirit that we call “GOD.” Ever since I was a child I have had many experiences with spirituality, but more so since 1995 where I would have intense experiences with spirituality and appearances from this spirit with actual proof. For some in this world the pictures or picture that I possess (which is in the book) could be explained as some other type of spirit or phenomena that took place that day or days when they (the pictures) occurred or were taken. Well the book gives some very valid proof that it is “GOD.”

Also in this book I explain about the usage of the number 3 in prophecy and how even “GOD” uses this number when speaking with Mankind and prophets. This number is very important when I travel or do anything when it comes to the book. This number has always appeared in many ways and facets of my life, and the many that I talk with also notice it very much. But now here I am traveling to Long Beach, N.Y. for my 35th High School Class reunion. Not only am I attending our class reunion to meet up with old school friends to talk about old times but also with a book in hand about some very important information to life and our future. Especially since I have had no contact with anyone from Long Beach since I moved away 33 years ago except for one person and he

didn't even go to our school in Long Beach, but did attend summer school one year in town. It wasn't until the year 1999 when I started to have many re-enter into my life again that grew up in Long Beach. I regret of not having kept in contact with anyone, but I gather that's how life was to be. I wondered how this night might be and what might occur on this night.

Anyway, knowing that I am now doing some traveling and I do have to do something with the book when I go to Long Beach the number 3 must appear in various forms and must always appear as 3 or 33 or 333 and never part of any other numbers. My plane seat to N.Y. was in isle 34, but on the way back the seat was in isle 33. I hadn't made my reservations for the airlines, my office did and the airlines assigned my seats. Not to inundate you with the appearance of the number 3 on this trip in this letter, but I will explain what happened on the 6th of August. Earlier in the day of the 6th I would be walking around town when I would meet up with someone that knew me from school and working at the amusement park in Long Beach. We talked about the book and of course many other things about our childhood, at work and school. But the book was more intense, that we discussed if dreams were a sign of reality and warnings to individuals.

Well this fellow proceeded to tell me about a dream he had that morning about someone with a bump on their head or that someone was going to bump their head and since we were talking that day he said: "that it probably was intended for me to hear this and that it was meant for me and not for him" I agreed with him. He also stated: "that probably somewhere during this day I would come across someone with a bump on their head or someone would have an accident and bump their head." I kept this in mind all day and was intrigued by getting to the reunion early and finding another person ("George") who had arrived early. We both had some conversation at the bar and during our conversation did I notice a bump on his forehead. I realized at that moment that I have now realized someone else's dream or fulfilled it. I also thought I am now at the right place in life, but something else was bothering me about my presence at the reunion. I was intending to bring some of the books that night to the reunion. Sorry I left them back at the hotel room.

At this point I took my glass of red wine and ventured out to the terrace for a brief conversation with "GOD" (when I say brief that could mean writing pages and pages of that conversation, so I keep it short here) When I got out on the terrace I looked around then turned my head upward at the facade of the restaurant did I notice two set's of balloons numbered 35 (four balloons, two 3's and two 5's probably helium inflated) which I or anyone would take it as for our 35th class reunion. Well I started talking to "GOD" stating that since I am here now and that I have yet to see the appearance of the 3's, even though I already came into contact with the fellow with the bump on the head, I need my proof that I am there for a reason and it also pertains to the book. I said ok "Father" I see 3's in the number 35 but you know and I know that the 3's must always appear alone and that if I don't see them within a short period of time that I would stop my actions with the book completely and not have stayed at the reunion. I also had asked "GOD" many questions (about the book and our future among many other items of our lives) at that moment, and if I were to see the 3's all my questions would be answered as a "yes" answer. I also asked if I could see the events of the night ahead and got the reply "surprise for your life" which meant I didn't know if I was going or staying at that point.

I gather it might have been a few minutes of talking that I turned to go back inside when I felt this nudge on my shoulder and a voice saying to me “look up” at that moment I looked up to noticed the two 3’s deflated and torn at the seams in the same spot on each balloon, the 5’s were still inflated and banging against the facade of the restaurant and even at the end of the night the 5’s were still inflated. To me that was the fastest response I ever received from “GOD”. At least that’s who I think deflated those balloons and at that moment. I ask others who they might think deflated those balloons or was it coincidence? After all the many experiences and brushes with the spirit of “GOD” this one was most profound and fastest. This appearance of the number 3 and the response made me feel in awe of the power of “GOD” and that what I am doing with writing a book and meeting everyone at the reunion that night is very real. Did I know back in school I would be writing a book and that at our 35th class reunion would take place with me being there? NO. Though I did know long ago that I had something important to do for all of Mankind, but when? That time frame is now.

Though I do like to rehash and renew old friendships with everyone, that if I spook you or you are not interested in prophecies and our future here on this planet, then I suggest you walk on to the next person in life. Otherwise anyone else that would like to renew old friendships and conversation with me can do so. There have been many experiences in life that I have enjoyed and not enjoyed and would be more than happy to discuss them with you.

Note: This is an edited version of the original letter sent to my classmates for their anonymity and privacy.

Anyway, I was very happy and enjoyed the evening and hope we can get together again soon. I have an upcoming radio show on December 14th 2005 with Victor Baines (Nostradamus Society of America) <http://www.nostramususa.com> on Ghostly Talk Radio for 3 hours. Will keep you informed by e-mail or you can get the info off website for the book <http://www.homey3.com>

With Joyous Love and Friendship,

a.k.a. “Homey 3 ☺”

P.S. For those of you who would like to converse with me please do so at my e-mail address or call me. I would like to converse with you as well, but I leave that up to you. I have changed the names of people for the purpose of anonymity at this time.
